

With Every Kiss
(Song for Frances)

With every kiss she inspires a song
With every touch her smile leads you along
On a ride
Deep inside her soul
You're her child and as pure as gold.

And when she laughs all the world will cry
To see her beauty light the sky
Stars twinkling in her eyes

She sends you love as she sings you to sleep
She wraps up hope in your pillow to keep
When she's gone you are never, never alone
For her heart is forever your home.
